PROFESSIONAL SUMMARY

Mobile Developer with **3+ years** of experience and a track record of delivering **10+ applications** to the App Store and Google Play. Specializing in **Flutter/Dart**, I excel at architecting **high-performance apps** with complex functionalities, including **real-time GPS tracking**, seamless **VoIP integration**, and **live video conferencing** using **Agora** and **BigBlueButton**.

EXPERIENCE

Mobile Application Developer

IT Land Technologies — Damascus, Syria

June 2025 — Present

Developed **Wi Ride** — ride-hailing platform (passenger + driver apps) with real-time GPS, dynamic pricing engine, Pusher event streaming, and background trip sync via custom queue architecture

Refactored **Mada** — ed-tech platform (student + teacher apps) with BigBlueButton live video, course management, and offline caching

Maintained **Signo** — production VoIP app with Flutter CallKit integration for native call handling on iOS & Android

Shipped **6 cross-platform production apps** for iOS & Android, all currently live on stores

Built CI/CD pipelines with **GitHub Actions**, automated builds, tests, and deployments to both stores

Led architecture discussions and enforced **code quality** through systematic reviews across teams
